First Quarter of Fiscal 2020 Financial Results

REVENUES. Revenues increased by 16.9% to RMB273.4 million (\$39.8 million) in the first quarter of fiscal 2020. The increase was driven by the implementation of new processing fee since April 2019 and the enlarged client base.

Despite the impact from the processing fee price hike, the new subscriber number still reached the Company's target level. As a result, revenues generated from processing fees and other services in the reporting quarter increased by 16.8 %YoY to RMB167.5 million (\$24.4 million).

As the accumulated subscriber base grew to 770,699¹ by the end of June 2019, revenues generated from storage fees increased by 17.1% YoY to RMB105.9 million (\$15.4 million) in the reporting quarter. Storage fee revenues accounted for 38.7% of total revenues, which was the same as in the previous year period.

GROSS PROFIT. Gross profit for the reporting quarter increased by 19.4% YoY to RMB227.6 million (\$33.2 million). Gross margin improved to 83.3% from 81.5% in the prior year period. Such margin improvement was mainly due to the increase in processing fee which exceeded the increase in direct costs such as raw materials and collection costs.

OPERATING INCOME. As the increase in gross profit was partially offset by the increase in operating expenses, operating income for the reporting quarter increased by 17.8% YoY to RMB112.4 million (\$16.4 million). Operating margin increased to 41.1% in the reporting quarter from 40.8% in the prior year period. Depreciation and amortization expenses related to properties, plant and equipment and intangible assets for the first quarter were RMB12.4 million (\$1.8 million), compared to RMB13.1 million in the prior year period. Non-GAAP operating income² improved by 15.0% YoY to RMB124.8 million (\$18.2 million).

Sales and Marketing Expenses. Sales and marketing expenses for the reporting quarter amounted to RMB60.6 million (\$8.8 million) compared to RMB51.4 million in the prior year period. Processing fee upward adjustment combined with lackluster consumer spending required more intense sales and marketing efforts to achieve the Company's conversion targets. The Company also stepped up its sales force recruitment effort with more hiring. Sales and marketing expenses as a percentage of revenues were 22.2%, compared to 22.0% in the prior year period.

General and Administrative Expenses. General and administrative expenses for the reporting quarter amounted to RMB49.9 million (\$7.3 million), compared to RMB41.0 million in the prior year period. Higher administrative expenses, staff costs, and legal and professional fees all contributed to the increase in general and administrative expenses. General and administrative expenses as a percentage of revenues was 18.3%, compared to 17.5% of the prior year period.

OTHER INCOME AND EXPENSES.

Change in Fair Value of Equity Securities. In the first quarter, the Company recognized an increase in fair value of equity securities, or "mark-to-market gains", of RMB10.0 million (\$1.5 million) while a decrease in fair value of equity securities of RMB9.3 million was recorded in the prior year period. Such changes were mainly attributable to the investments in Cordlife Group Limited ("Cordlife").

NET INCOME ATTRIBUTABLE TO THE COMPANY'S SHAREHOLDERS. As a result of the increase in operating income and the increase in fair value of equity securities, income before income tax for the first quarter increased by 42.1% YoY to RMB129.4 million (\$18.9 million). Income tax expense for the reporting quarter was RMB19.5 million (\$2.8 million). Net income attributable to the Company's shareholders for the reporting quarter increased by 47.3% YoY to RMB108.3 million (\$15.8 million). Net margin for the first quarter improved by 8 percentage points to 39.6%.

EARNINGS PER SHARE. Basic and diluted earnings per ordinary share for the first quarter fiscal 2020 was RMB0.89 (\$0.13).

Recent Developments

- On June 4, 2019, the board of directors of the Company (the “Board”) received a non-binding proposal letter from Cordlife, a company listed on the Mainboard of the Singapore Exchange Securities Trading Limited (“SGX”), pursuant to which Cordlife proposes to combine the businesses of Cordlife and the Company, by way of a statutory merger. According to the letter, Cordlife would issue approximately 2,497.9 million ordinary shares at an issue price of SGD0.5 per ordinary share in exchange for all of the outstanding ordinary shares of the Company at \$7.50 per ordinary share. Upon completion of the proposed transaction, the Company’s ordinary shares will be delisted from the New York Stock Exchange and the Cordlife ordinary shares will continue to trade on SGX. On June 5, 2019, the Board formed a special committee of independent directors (the “Special Committee”) who are not affiliated with Cordlife to evaluate such proposal. The Special Committee intends to retain advisors, including an independent financial advisor and U.S. and Cayman Islands legal counsels, to assist it in its work.
- The Company cautions its shareholders and others considering trading its ordinary shares that no decisions have been made with respect to the Company’s response to the proposed transaction. The proposed transaction is still subject to various conditions, including but not limited to, completion of due diligence, parties entering into definitive agreement, and/or each of Cordlife and the Company obtaining its relevant regulatory and shareholders approval. In addition, litigation has been filed in the Cayman Islands challenging the proposed transaction. There can be no assurance that any definitive offer will be made, that any agreement will be executed or that this or any other transaction will be approved or consummated.

Therefore, the Company terminated their subscription services according to the subscription contracts and these units are being treated as if they were donated cord blood units and will be part of the Company’s non-current inventories. Hence, the net accumulated subscriber base was 770,699 as of June 30, 2019.

Use of Non-GAAP Financial Measures

GAAP results for the three months ended June 30, 2019 include non-cash items related to the depreciation and amortization expenses. To supplement the Company's unaudited condensed consolidated financial statements presented on a U.S. GAAP basis, the Company has provided adjusted financial information excluding the impact of these items in this press release. The non-GAAP financial measure represents non-GAAP operating income. Such adjustment is a departure of U.S. GAAP; however, the Company's management believes that these adjusted measures provide investors with a better understanding of how the results relate to the Company's historical performance. Also, management uses non-GAAP operating income as a measurement tool for evaluating actual operating performance compared to budget and prior periods. These adjusted measures should not be considered an alternative to operating income, or any other measure of financial performance or liquidity presented in accordance with U.S. GAAP. These measures are not necessarily comparable to a similarly titled measure of another company. A reconciliation of the adjustments to U.S. GAAP results appears in exhibit 3 accompanying this press release. This additional adjusted information is not meant to be considered in isolation or as a substitute for U.S. GAAP financials. The adjusted financial information that the Company provides also may differ from the adjusted information provided by other companies.
